菠萝软件如何对待社会责任？

坚持给用户带来最好的

菠萝软件（可能简称 ABL Soft）是一个由学生集体开发和维护的网页开发团队。以 2022 年 1 月为例，菠萝软件总支出不少于 300 元，这是由一群普通初中学生独自承担的。

然而，就是这样微小的网站，仍然连续遭到不法分子 DDOS 攻击（截至 2022 年 5 月 21 日）——这将耗费大量流量费用和服务器资源。通常，站长会选择关闭服务器、停止解析等手段维护利益。但是，菠萝软件承诺为用户带来持续的、不间断的、稳定的服务。因此，我们自愿承担高额的流量费用，保证菠萝软件在遭受攻击的同时，可以稳定的为用户带来服务。此外，我们已经向公安机关报备。做好自己应该做的，坚持给用户带来最好的——社会责任 SSS+。

为社会提供财产支持

在发生自然灾害、疫情爆发，或是人们需要帮助时，我们通常会主动向慈善机构进行捐款、捐物。维持社会可持续发展——社会责任 SSS+。

为社会提供宣传支持

当社会需要时，菠萝软件的“关于”及“更新日志”页面上，会放置权威媒体的公益广告，并在网站 404 页面接入腾讯公益 API，为寻找走失儿童尽一份力量——社会责任 SSS+。

How does ABL Software treat social responsibility?

Insist on bringing the best to users

ABL Software (may be called ABL Soft for short) is a web development team developed and maintained collectively by students. In January 2022, for example, the total expenditure of ABL Software is not less than 300 yuan. This is borne by a group of ordinary junior high school students alone.

However, such a tiny website is still continuously subject to criminal DDOS attacks (up to May 21st, 2022), which will cost a lot of traffic fees and server resources. Usually, the webmaster will choose to shut down the server, stop the parsing and other means to secure profits. But ABL Software promises to bring users a continuous, uninterrupted, and stable service. Therefore, we voluntarily bear high traffic fees to ensure that ABL Software can stably bring services to users while being attacked. In addition, we have reported to the public security organs. Do what we should do and insist on bringing the best to users – social responsibility SSS+.

Provide property support to the society

When the natural disaster occurs, the epidemic breaks out, or people need help, we usually take the initiative to donate money and materials to charities to preserve sustainable social development – social responsibility SSS+.

Provide publicity support to the society

When the society needs it, the "About" and "Changelog" pages of ABL Software will place the public service ads of authoritative media. And the 404 page of the website is connected to Tencent's public welfare API to make a contribution to the search for lost children – social responsibility SSS+.
